

**110V – 240V AC Input (rated)**  
**Regulated 13.8V DC 3A Output (nominal)**

**Specified for use with Storm AXS access control products**  
**this robust, steel encased, switch mode power supply is rated for continuous high performance applications.**

The Storm AXS power supply includes an integrated battery charger with intelligent battery state monitoring.

This power supply is designed specifically for use in access control and building security applications.

**(Please note: Battery not included).**

Full electronic short circuit and overload protection on load output under mains operation. Output connections are individually fused.

**Rated for permanent installation within a secure, dry, indoor location**

- Continuous full rated current to load
- Additional 0.5A to charge standby battery (battery not included)
- Universal mains input voltage 90 – 264Vac
- High efficiency electronics (reduced operational costs and operating temperatures)
- Installer safe design with shrouded high voltage components
- Short circuit and overload protection
- Mains transient protection
- Case opening/tamper detection
- Fault warning LED
- Individually fused outputs
- Meets the essential requirements of; Low Voltage 2006/95/EC  
 EMC 2004/108/EC WEEE2002/96/EC RoHs 2002/95/EC

All dimensions in mm

Whilst every effort is made to ensure details are correct at time of print, specifications are subject to change without notice.
