

# Self-service should create independence. Not barriers.

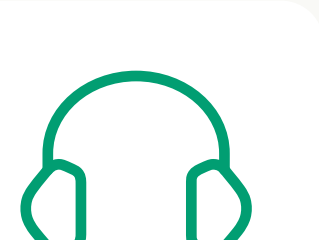

Every person deserves to use self-service confidently, privately and independently.

That's why organisations around the world trust Storm Interface to make accessibility part of every customer journey - not an afterthought.

## The global standard for self-service accessibility

How we help organisations:

-  **Understand**  
Accessibility reviews, customer journey assessments and practical guidance to identify barriers and opportunities.
-  **Design**  
Embedding accessibility into kiosks and self-service experiences from the earliest stages of planning and design.
-  **Enable**  
Industry-leading tactile keypads, assistive interfaces and accessible hardware engineered for demanding public environments.
-  **Support**  
Technical guidance and future-proofing advice as legislation, technology and customer expectations continue to evolve.

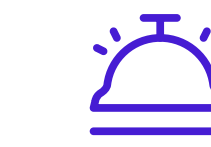

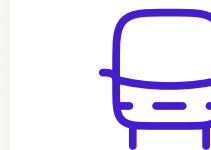

## Engineered for the real world

Millions of self-service interactions every day

We have a suite of award-winning products that meet current and future legislation. Designed in collaboration with users to ensure maximum functionality and usability. Delivering reliable performance in the harshest environments.

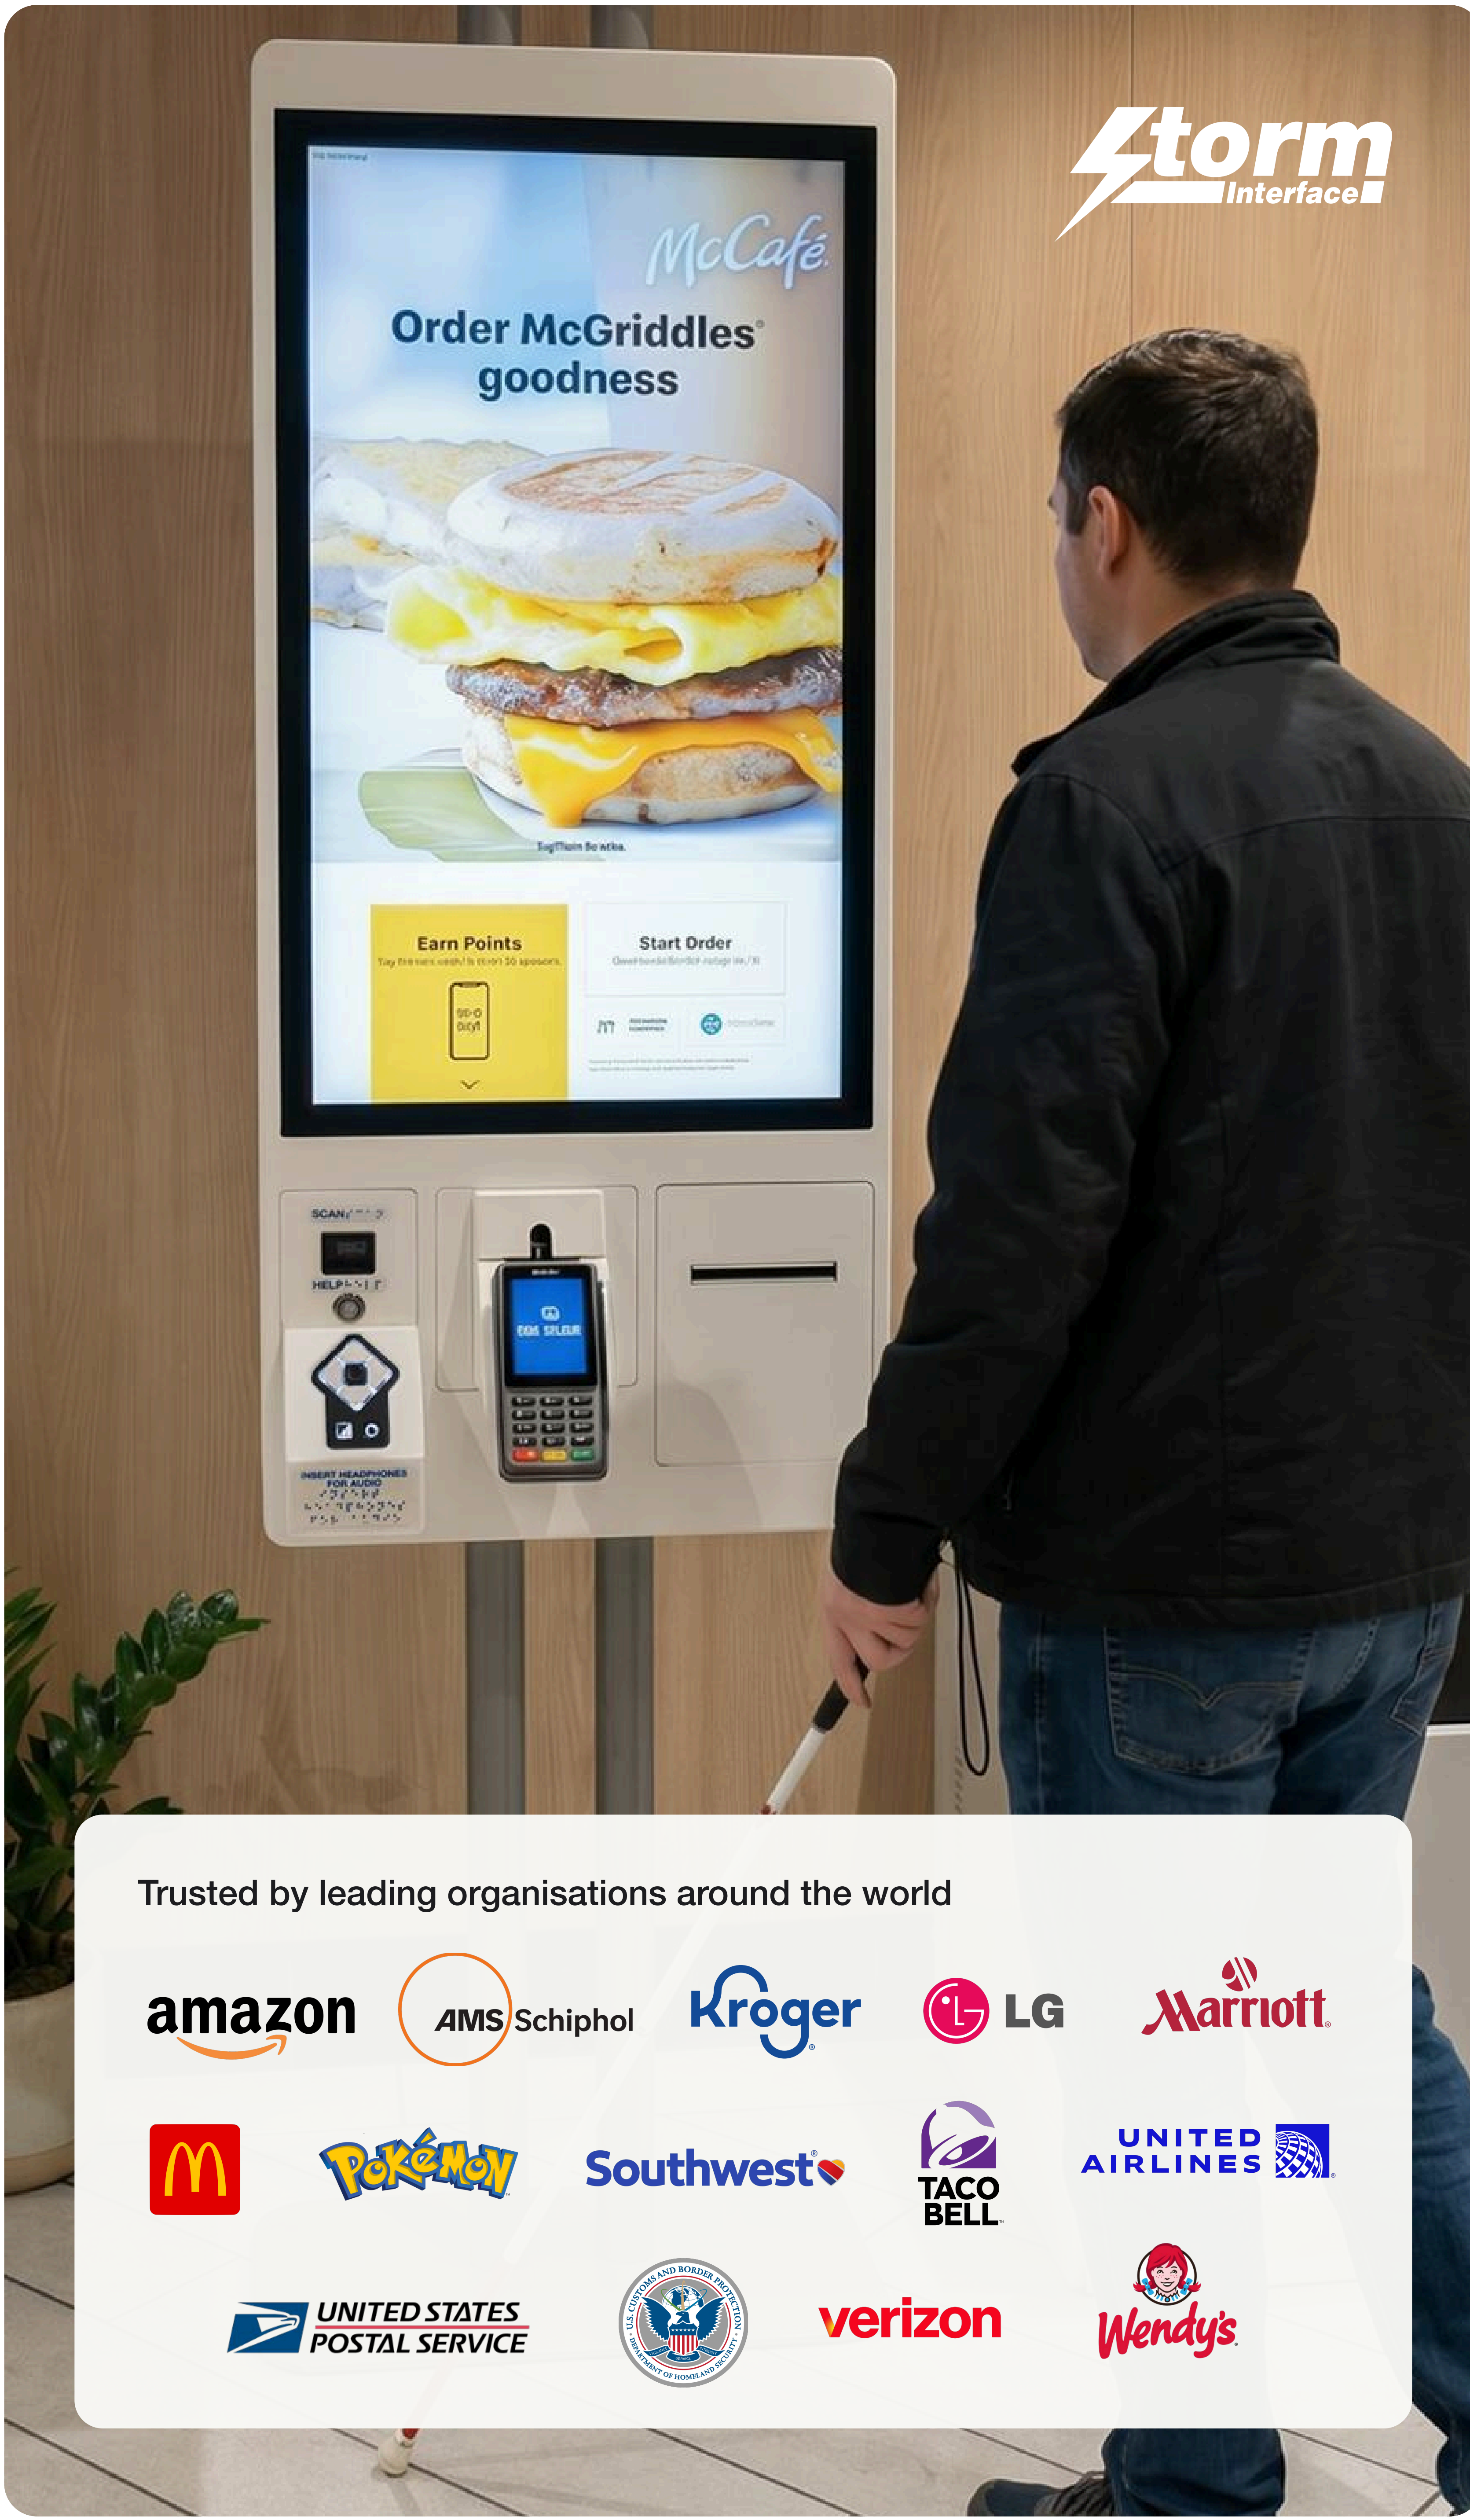

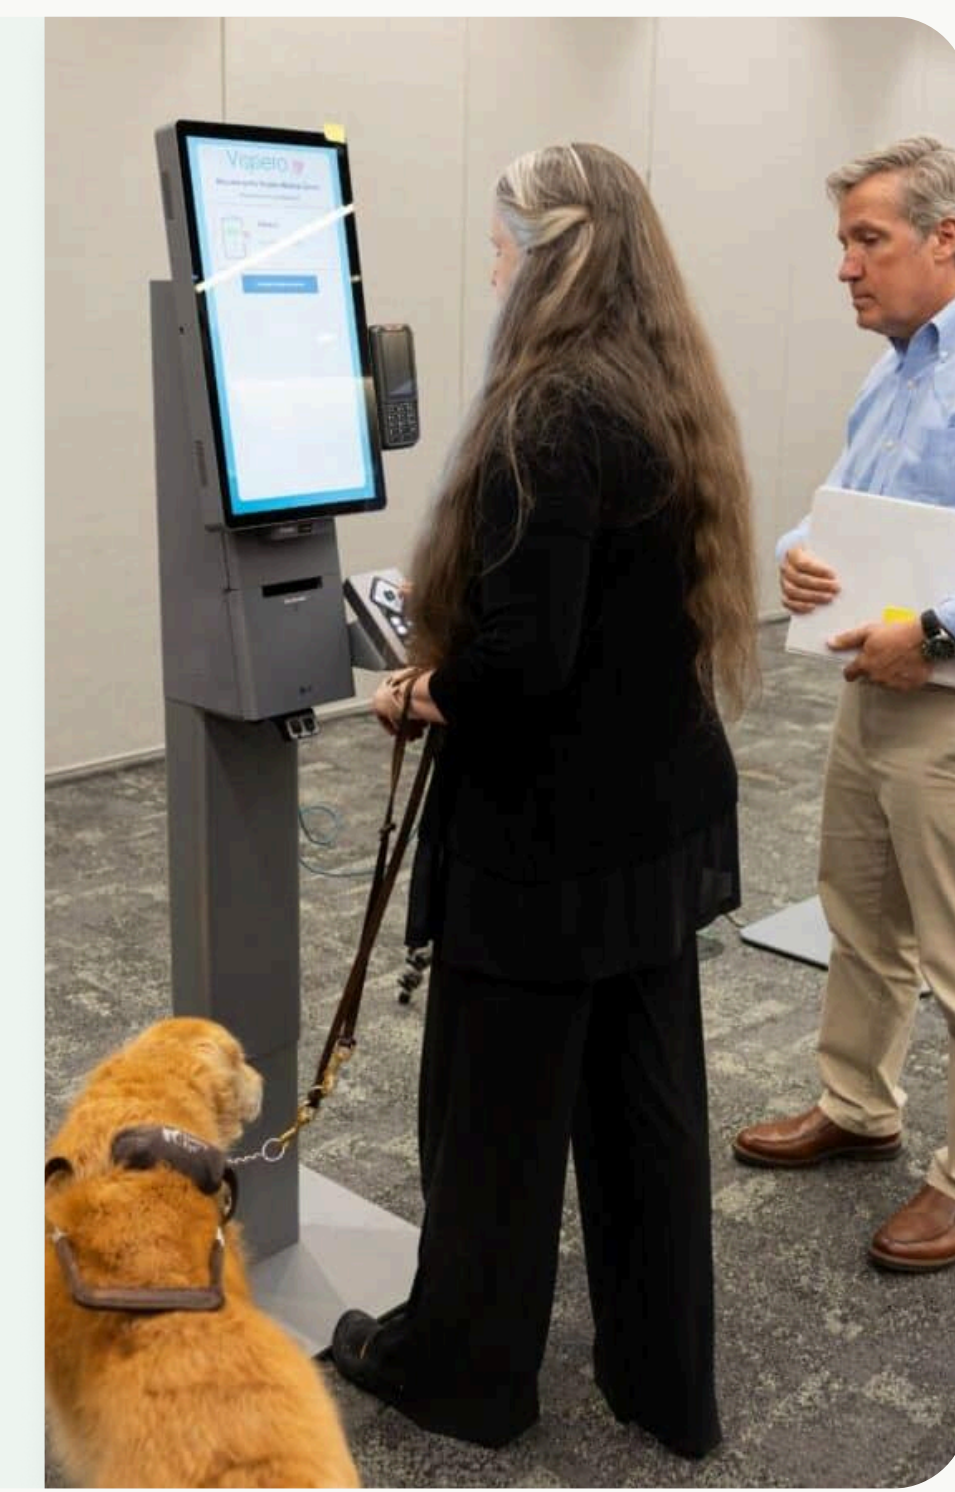

## Trusted by industry leaders in demanding environments

- |                                                                                                  |                                                                                                         |                                                                                                          |
